Care & Place
NURSING HOME DIRECTORY

FREE FOR FAMILIES

THE TRUSTED WAY TO FIND A NURSING HOME

Find the right nursing home with *confidence.*

Free for families. No referral fees.

Care & Place brings every certified nursing home's Medicare data together in one place, in plain language.

On your family's side: searching, saving and comparing cost nothing, and we're never paid when a family chooses a home.

WHAT YOU CAN CHECK

- ✓ **Medicare star ratings**, shown as published
- ✓ **Health inspection findings**, in plain language
- ✓ **Staffing** and quality measures
- ✓ **Ownership and fines**, from public Medicare data

GUIDES AND TOOLS

- + **Search** by city, county or ZIP
- + **Save and compare** homes side by side
- + **A hospital discharge checklist** when time is short
- + **Guides** on paying, touring and moving in
- + **Links to public programs** that help families for free

certified nursing home	Medicare data, in plain language	for families, no sign-up to search	referral fees

What you can count on

Ratings straight from Medicare

We show Medicare's ratings as Medicare publishes them. Paying never changes a home's ratings or inspection findings.

Free for families. No referral fees.

Searching, saving and comparing cost nothing, and we're never paid when a family chooses a home.

You stay in control

No sign-up to search. We're a directory, not a placement service, so you reach out to homes when you're ready.

How to choose a nursing home.

ON EVERY HOME'S PAGE

What you can look up

Official Medicare data, in plain language.

ON EVERY CERTIFIED HOME

- ✓ Medicare star ratings, as Medicare publishes them
- ✓ Health inspection findings
- ✓ Staffing and quality measures
- ✓ Ownership and fines

WHEN YOU COMPARE

- + Line up homes side by side
- + Read the three component ratings, not just the overall star
- + For short rehab stays, see short-term rehab results on the home's page

The same public Medicare data behind Medicare's Care Compare.

COMING FROM A HOSPITAL?

A checklist when time is short

Often only a day or two to decide
Most nursing home stays start with a hospital discharge. The checklist helps you move quickly without skipping what matters.

Build a short list with real data
Search by city, county or ZIP, then compare ratings, inspections and staffing.

Call, then visit if you can
Published data can't show today's openings. Confirm a bed and your coverage, and visit if you can — even briefly.

- ✓ Get the essentials from the hospital first
- ✓ Ask about your coverage
- ✓ Confirm the care the home can provide
- ✓ Stay involved after admission

Find the checklist at careandplace.com/start

A FEW SHORT TIPS

Before you choose a home

- Check the level of care first: a nursing home, assisted living, memory care or help at home
- Medicare covers short rehab stays; Medicaid pays for most long-term care once savings run low
- For memory care, ask each home directly — Medicare doesn't list it

How to get started

1 Start here
Open careandplace.com/start for guides in the order most families need them.

2 Search nearby
Search by city, county or ZIP.

3 Compare homes
Ratings, inspections and staffing, in plain language.

4 Visit and decide
Call the homes you like, visit at least two, and bring your questions.
